

Pulham Market Rights Of Way Report 2023 March.

The paths in general are in good condition. However, Footpath No 7 from Guildhall Lane towards the A140 is not being marked on the ground, nor is Footpath 5 from Dunnings Lane to Island House. This is the case every year and they are always reported by us to Highways.

There is a new bridge in place over the Beck from Station Road Pulham Market leading to Pulham St Mary. The old one was becoming very worn and had been moved out of alignment when the Beck flooded badly 2? years ago.

Footpath 6 from Dunnings Lane to the Bumbles is suffering from flint stones being laid along its edges, this is unnecessary and means the landowner cannot cut the path with the mower as the stones will damage equipment.

A reminder to Walkers, please keep to Rights of Way unless your way is blocked, field edges, unless you have permission, are not legal Rights of Way.

If you experience problems you can go online to Highways and report the issue, to the Parish Clerk, and or myself.

Sue Hewitt

Footpath Warden Pulham Market
